Mormon Bibliography 1992

Mormon Bibliography 1992

Ellen M. Copley

INTRODUCTION

The Mormon bibliography for 1992 is a selective bibliography of publications about Mormons and Mormonism. Although every attempt has been made to include all aspects of Mormonism, we have purposely excluded some types of items. For instance, newspaper articles and articles published in the official magazines of The Church of Jesus Christ of Latter-day Saints are well indexed by the Church itself and are not reiterated here. However, the individual poems, short stories, and other such works from these official magazines have been retained and are listed in the arts and literature section of the bibliography. The arts and literature section also includes every item of this kind which was written by a Mormon author, regardless of the content, with the exception of critical essays. The other sections (and the critical essays in the arts and literature section) include only articles and books written with a specific Mormon focus and theme.

As do compilers of any bibliography, of course, we constantly fear not knowing of a publication and therefore leaving it out. Readers who know of publications that should have been included in this Mormon bibliography are asked to contact either Ellen Copley or Scott Duvall, Department of Special Collections and Manuscripts, 4040 HBLL, Brigham Young University, Provo, Utah, 84602. We will include those publications in the 1993 Mormon bibliography.

This bibliography begins with a list of abbreviations and is broadly organized into the following sections: Arts and Literature, Bibliography, Biography and Autobiography, Contemporary Issues, Doctrine and Scripture, History, and Inspiration. The works are listed alphabetically by author within each section.
