Connor’s parents signed the paperwork to have him unwound; statistics declared Risa was not worth keeping, so she is to be unwound; Lev prepared from birth to be unwound. The three teens’ current fates were settled long ago as a result of a war fought over the pro-life/pro-choice debate. Desperation for peace resulted in a law allowing for retroactive abortion, a process called “unwinding” in which human bodies are disassembled into parts that will be used for someone else. In a moment of chaos, Connor, Risa, and Lev are brought together. Their joining becomes the catalyst that will awaken the world to the horrors created by a law meant to bring peace, but first the trio must escape and survive.

In this chilling book, Shusterman takes a difficult issue of our day to its potential extremes. Like the issues addressed in Haddix’s *Among the Hidden*, *Unwind* demands that readers think seriously about a hard subject that is generally avoided. The story unfolds through various perspectives and finds a conclusion that is simultaneously heartbreaking and redemptive. It is a book that deserves a place on school reading lists, and it has the potential to draw in even the most reluctant reader.
