There are all kinds of dinosaurs, from the tiny *Micropachycephalosaurus* to the huge *Barosaurus*. In this creative book of prehistoric poems, Douglas Florian teaches interesting facts about various dinosaurs from the Triassic to Cretaceous period. Each picture is filled with hidden puns and highlights each dinosaur’s unique features.

*Dinothesaurus* is a beautiful blend of education and creativity. Florian’s poems are intelligent, fun, and diverse. His clever artwork adds to his poetry, and both children and adults will enjoy looking at all the hidden facets of these dinosaurs. Florian includes a “Glossarysaurus” that provides more history and facts about each dinosaur, and he lists museums and fossil sites where readers can learn more. An excellent choice for all dinosaur enthusiasts, but engaging for readers of all ages.
