Interest Level: Excellent

Rating: Intermediate

Review

While visiting an ancient pyramid in Egypt you are trapped inside by a sand storm! To get out of the pyramid you must avoid booby traps and solve puzzles in order to find your way.

This book has fully illustrated and colored pages with math and logic puzzles on every page. The puzzles are built into a simple storyline. Each problem involves a different method of critical thinking and problem solving which keeps the book interesting. There are hints but no answers in the back of the book, so don't plan on making it out by cheating!
